6m Climbing Net with Social Base Layers

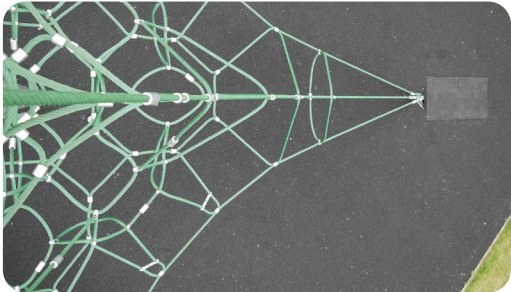

Hot Dip Galvanised Mast

Spatial Net designed to EN1176

16mm Glue Braided Nylon Rope

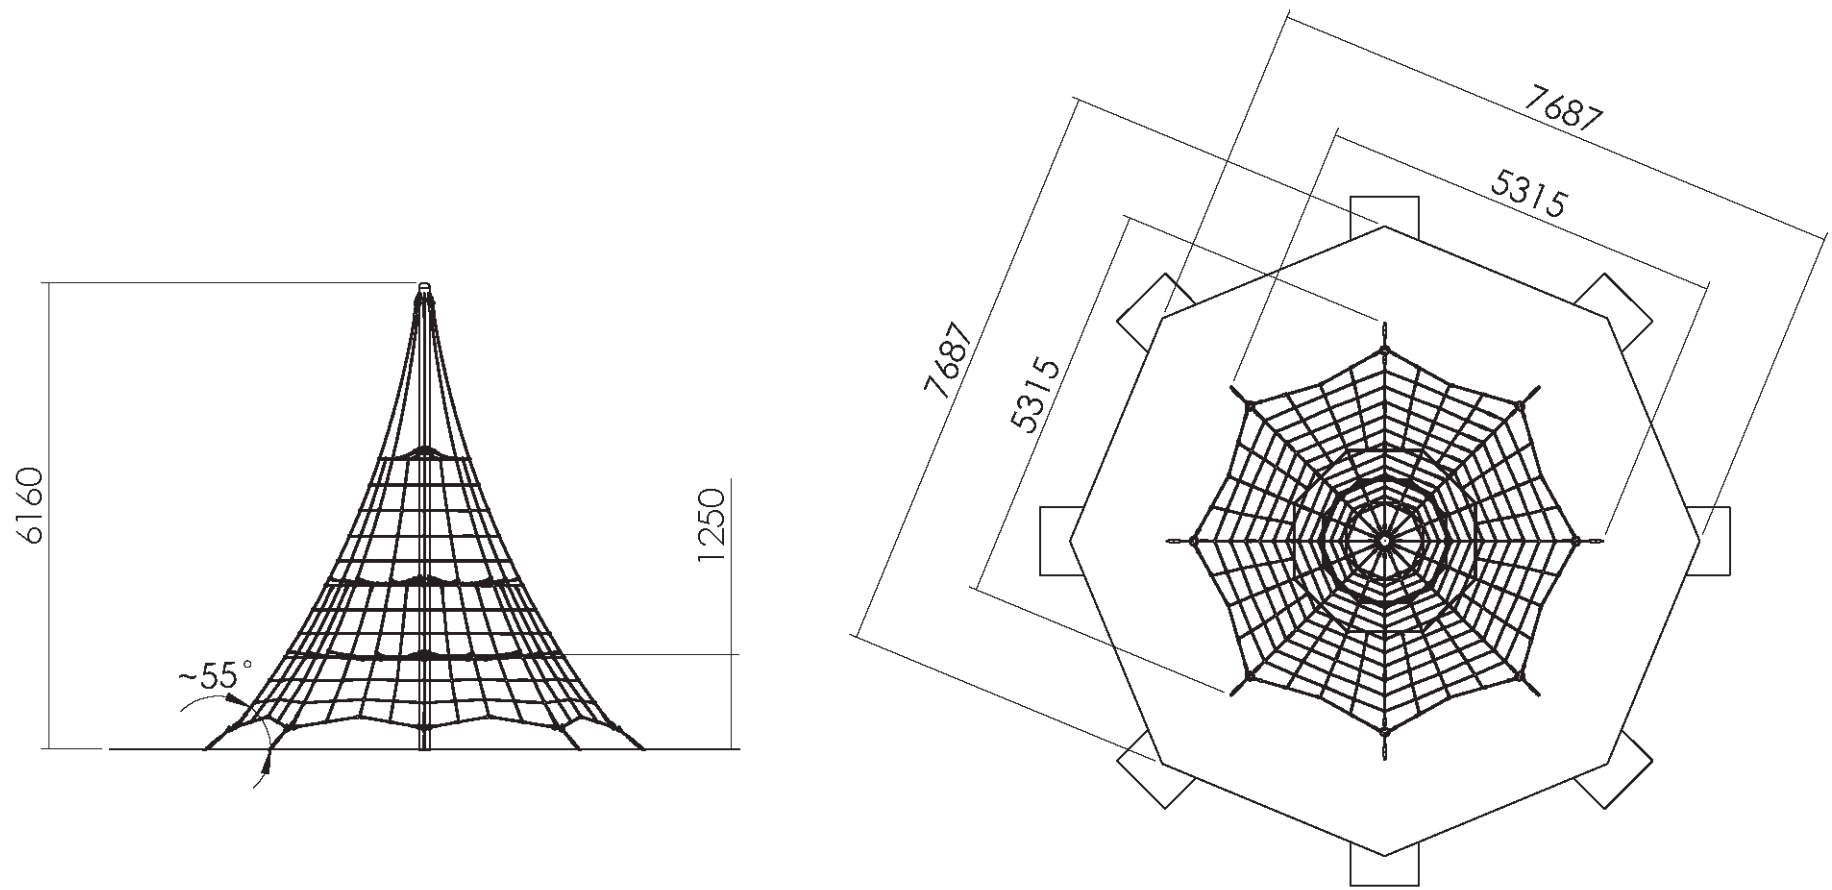

Corner Box for wet pour & Grass Mat surfacing

Description:

Designed to stand out, the Ledi Mountain Net combines height, challenge, and visual impact. Its strong steel core supports a multi-layered climbing experience that encourages movement, coordination, and group interaction. Two spacious internal rope layers act as natural platforms, providing space for climbing, resting, and socialising. Ideal for large play areas, Ledi invites children to explore, connect, and build confidence through adventure.
